PROFESSIONAL SUMMARY

Enthusiastic and detail-oriented Computer Science Engineering graduate with practical experience in Java, Python, SQL, Web Development, and Full Stack Development. Proficient in designing responsive web applications using React, Node.js, Express.js, Flask, MySQL, and MongoDB. Hands-on experience gained through internship and academic projects involving database management, REST APIs, authentication, and CRUD operations. Passionate about developing scalable software solutions, learning emerging technologies, and contributing effectively to collaborative development teams.

PROFESSIONAL EXPERIENCE

Web Development Intern

Thiranex Technology

- Developed responsive web applications using HTML, CSS, JavaScript, and Node.js.
- Worked with MySQL and MongoDB for efficient database management.
- Assisted in implementing backend functionalities using Express.js.
- Collaborated with the development team to improve UI/UX.
- Optimized application performance and enhanced user experience.
- Participated in debugging, testing, and feature enhancement activities.
- Maintained source code using Git version control.

EDUCATION

Bachelor of Engineering (B.E.), Computer Science and Engineering

Year of Graduation: 2023

TECHNICAL SKILLS

Programming Languages

Java, Python, JavaScript

Frontend Technologies

HTML5, CSS3, JavaScript, React.js

Tools & Technologies

Git, GitHub, AWS (Basics)

Backend Technologies

Node.js, Express.js, Flask, Spring Framework (Basics)

Databases

MySQL, MongoDB

Core Concepts

Object-Oriented Programming (OOP), Data Structures & Algorithms, REST API Development, CRUD Operations, Database Design, Authentication & Authorization, Responsive Web Design

CERTIFICATIONS

- Web Development Certification – Rinex Technology
- Software Development Internship – Thiranex Technology

PROJECTS

Uber Customer Management System

Technologies: Flask | MySQL | JavaScript | HTML | CSS

- Designed and developed a customer management system with secure user authentication.
- Implemented complete CRUD operations for customer records.
- Integrated MySQL database.
- Developed responsive frontend.
- Improved data management efficiency.

Task Management System

Technologies: React.js | Node.js | Express.js | MongoDB

- Built a full-stack task management application.

- Implemented drag-and-drop task workflow.
- Designed RESTful APIs.
- Integrated MongoDB.
- Developed responsive UI.
- Enabled real-time task organization.

ACHIEVEMENTS

- Participated in Hackathon conducted by Dhanalakshmi Srinivasan College.
- Successfully completed industry-oriented internship in Web Development.
- Developed multiple full-stack web applications using modern technologies.

SOFT SKILLS

- | | |
|-------------------|------------------------|
| • Problem Solving | • Team Collaboration |
| • Leadership | • Communication Skills |
| • Time Management | • Adaptability |
| • Quick Learning | • Analytical Thinking |
